La bellezza naturale del cristallo di QUARZO dalle linee eleganti

L'innovativa combinazione di cristallo di quarzo naturale e montature moderne dalla linea pulita, sono al centro di questa iconica collezione. Altrettanto sorprendentemente bello quanto unico. I cristalli di quarzo sono stati utilizzati al meglio nella loro forma naturale con le loro caratteristiche organiche - un toccante promemoria per ricordarci che vengono direttamente dalla terra. Ad ogni cristallo è stato inserito a mano un piccolo magnete per poterlo collocare nelle linee eleganti della cornice moderna, in una scelta di oro satinato o nichel satinato.

THE NATURAL BEAUTY OF QUARTZ crystal in elegant lines

The innovative combination of natural mined quartz crystal and modern clean line frames, is at the core of this iconic collection. As stunningly beautiful as it is unique. The quartz crystals have been utilised in their most natural form with organic inclusions - a poignant reminder that they have come directly from the earth. Each crystal has been hand bonded to miniature magnets that hold them in to the slick lines of the modern frame, in a choice of satin gold or satin nickel.

-LUCCIOLA PRO

Dopo il successo della nostra collezione Lucciola, abbiamo ora sviluppato la collezione Lucciola abbellita. L'originale design del Lucciola è stato impreziosito da alcuni particolari in metallo che riempiono parzialmente i prismi; volutamente creano dei pieni rispetto ai vuoti. Il risultato è una presenza aerea più vestita, più scenica, più decorativa rispetto alla versione standard.

-DIAMANTE

INTRODUCING OUR STUNNING DIAMANTÉ RANGE

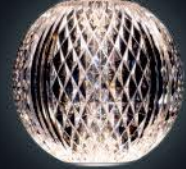

We are proud to introduce our Diamanté Crystal Aspect Pendants. We have been developing this globe over the last 18 months, with almost obsessive attention to detail. The unique way in which we form the crystal aspect in shape, angle and pattern creates stunning refractions in every facet. These powerful LED Pendants use both warm and cool light to create a dazzling effect and can also be dimmed for a beautiful ambient glow.

Siamo orgogliosi di presentare la nuova collezione DIAMANTE. Abbiamo sviluppato questa sfera in acrilico che ha la forma di diamante in ogni sfaccettatura. La sfera è illuminata da due schede LED che utilizzano sia la luce calda che quella fredda per creare un effetto abbagliante, ma che all'occasione può essere attenuata per una splendida luce adatta ad ogni tipo di ambiente.

-BRILLANTE

Grazie all'incredibile successo della nostra collezione Diamante proponiamo adesso la nostra nuova collezione BRILLANTE. Abbiamo impreziosito la sfera del Diamante con delle altre sfere in cromo lucido ed oro lucido in modo tale da creare dei giochi di luce. L'abbinamento delle sfere sovrapposte crea rifrazioni straordinarie in ogni sfaccettatura impreziosito per di più dalla presenza di rosoni lucidi ed opachi che amplificano l'effetto luminoso.

I pendenti utilizzano dei led molto performanti a luce calda che possono creare un bellissimo bagliore ambientale quando vengono dimmerati.

Due to the incredible success of our Diamante collection we have designed and now added our new collection BRILLANTE. Rather than just adding different variants of the same Diamante single globes, we have added beautifully finished polished chrome and polished gold globes to our Diamante globes along with flush versions.

The unique way in which we form the crystal aspect globe in shape, angle and pattern creates stunning refractions in every facet. These powerful LED Pendants use both warm and cool light to create a dazzling effect and can also be dimmed for a beautiful ambient glow.comprises of pendants, wall lights, floor and table lights.

-PERLA/PEARL

INTRODUZIONE

PERLA è un gioiello di vetro candido e luminoso di forma regolare ma diversa nei diametri.

Il Bello di PERLA è che trasforma i tuoi desideri in solide realtà il tuo "vissuto" nello straordinario.

Tre sfere di diverso diametro elettrificate rispettivamente con 2 e 3 watt led dimmerabili consentono infinite soluzioni.

Il risultato finale è incredibilmente elegante perché coniuga la bellezza al lusso.

La fluidità delle linee simile ad una collana di perle arreda ogni tipo di spazio in maniera elegante, opulente ci viene in mente un aggettivo molto di moda; tutto molto GLAMUR.

INTRODUCING
MOLECULAR
un nuovo concetto di illuminazione
A NEW CONCEPT IN LIGHTING

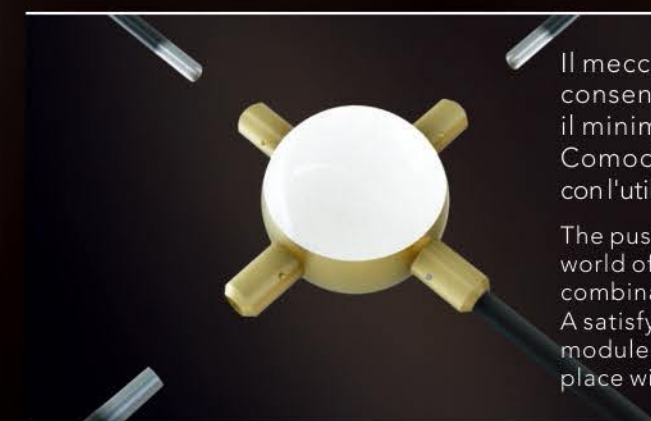

INTRODUCING
MOLECULAR
MODULAR LIGHTING SYSTEM

• Un circuito con un meccanismo ad incastro da modulo a modulo che moltiplica la luce in basso voltaggio.

Alluminio leggero ed acciaio inossidabile consentono la realizzazione dei progetti più ambiziosi con il minimo sforzo e con pochissimi supporti di fissaggio. Molecular è una collezione di Illuminati Lighting technology. Una sfera ed un asta di raccordo consentono infinite possibilità di utilizzo. Il guscio in fusione d'alluminio contiene 2 lenti in polimero che creano una bella luce calda. Disponibili a sospensione, plafoniera, tavolo e parete.

Molecular is a contemporary globe and rod system that utilises Illuminati's Modular technology to give limitless options. Quality has been designed into every aspect of the system. The globes are cast in aluminium and the unique polymer based lenses filter the light creating a beautifully defused glow and further control is added with all ceiling lights being dimmable. Available as pendants, wall lights, floor lamps and table lamps.

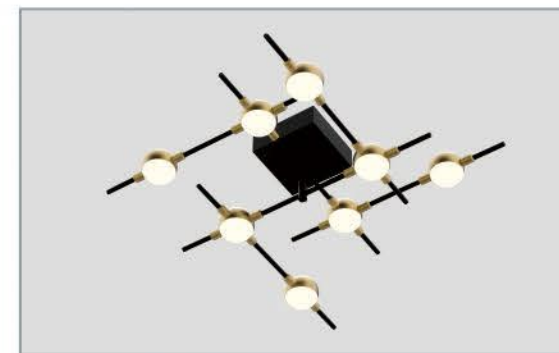

Il meccanismo conetti e blocca consente illimitate soluzioni con il minimo sforzo. Comodi connettori sono fissati con l'utilizzo di una chiave a brugola.

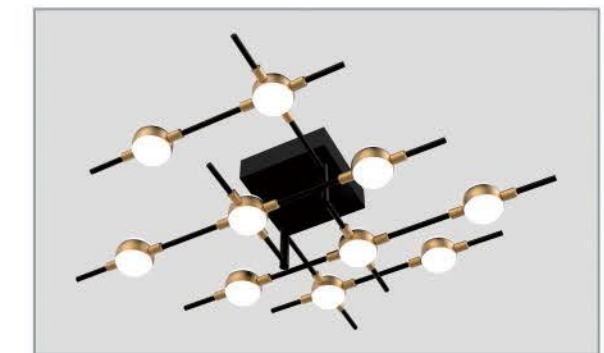

The push lock mechanisms open up a world of options to create limitless combinations with minimum effort. A satisfyingly snug fit connects all modules that can then be locked in place with the grub screw.

MOLECULAR FLUSH 8-20 LIGHT KITS

The 8-20 light system is a simple kit perfect for medium to large size rooms, or use multiples for larger spaces. Offering versatility in design set up with a good light output that can also be dimmed. Each globe has dual source lighting through two opaque lenses, projecting the light up and down.

-CRACKLE

THE BEAUTY OF REFRACTION REFLECTION & DISPERSION

We are proud to introduce our new Crackle Crystal collection. Continually innovating we have developed and finally realized our long term ambition of a crystal that refracts light. Creating not only a beautiful ambient glow but also a stunning focal point within the crystal itself, with every colour of the light spectrum. As the light moves through crackled facets it is scattered and fractured, creating a wonderful sparkle. Our craftsmen handwork each and every piece to get the optimum light refraction meaning no two crystals are the same.

Splendida collezione realizzata con diffusore di vetro trasparente con effetto crackle.

La particolarità sta nella rifrangenza della luce nella trasparenza del vetro e nella diffusione di una luce sempre diversa come diverse sono le sfaccettature interne.

Ideale per spazi commerciali dove la luce ed i suoi giochi sono parte integrante dell'arredo e per ambi a spazi domestici.

SINGLE LIGHT PENDANT SUGGESTED SET UPS

For ease of adjustment, the Crackle is designed with a clutch mechanism to raise or lower the light, even after the product has been installed. Suitable for low and high ceilings, the simple single Light Pendant is perfect for illuminating smaller or larger spaces.

-AISHA/ETERNITY

Design Illuminati Team

Bella. Elegante. Luminosa. Questa è Aisha. Una collezione di due sospensioni con dei luminosissimi cristalli. Una lampada di cui ti innamori al primo sguardo. Curata nei minimi particolari, Aisha potrà valorizzare ulteriormente sia l'arredamento in stile più elegante che quello moderno e di design più esigente. Ma saprà attirare tutti gli sguardi anche nel ristorante stellato, nella sala da the esclusiva, nella showroom di moda. Nella sua bellezza, Aisha, la puoi godere sopra il tavolo della tua sala, piuttosto che sopra quello del ristorante stellato.
